Issue:

No codes work.

31130\* gives 5 beeps.

Reset Programming

Disconnect power to compactor.

Remove face to keypad.

Move the DAP jumper from the OFF to the ON position (top right hand corner of board)

Reconnect the power supply to the compactor. Keypad will start beeping.

Move the DAP jumper back to the OFF position. Keypad will stop beeping and the yellow LED will be on solid. The keypad is now in programming mode.

Enter 031130#

The keypad will beep twice indicating the installer code is accepted.

Enter \* to exit program mode.

Enter 31130\*
